

## **Assignment 1**

**Assignment1 Project**

**Xin Tan**

**National University**

**CSC615**

**Professor Geoge H. Tanabe**

## Assignment 2

### Overview:

IDE: vim, eclipse  
Date: May 4<sup>th</sup> 2009  
Compiler: SUN JDK 6.0 Linux 64bit (1.6)  
Ant Makefile: build.xml  
Project URL: [http://github.com/tanxin/xin\\_csc615](http://github.com/tanxin/xin_csc615)

### Version Control Information:

```
tanxin@laptop ~/.workspace-java/csc615 $ git log --stat
commit 5246470270c0a62d2fb16807fd37fdd2e21b2dd9
Author: Xin <tanxincn@gmail.com>
Date: Mon May 4 15:54:27 2009 -0700

### Get SourceCode:

From Git (newest version):

```
tanxin@laptop ~/.workspace-java/csc615 $ git clone git://github.com/tanxin/xin_overlay.git
```

From CD-ROM:

```
tanxin@laptop ~/.workspace-java/csc615 $ cp -r /mnt/cdrom/* .
```

## Assignment 3

### Compile:

```
tanxin@laptop ~/.workspace-java/csc615 $ ant compile
Buildfile: build.xml

init:
[mkdir] Created dir: /home/tanxin/documents/school/nu/CSC615/project/build

compile:
[javac] Compiling 6 source files to /home/tanxin/documents/school/nu/CSC615/project/build

BUILD SUCCESSFUL
Total time: 1 second
```

### Run:

```
tanxin@laptop ~/.workspace-java/csc615 $ ant run
Buildfile: build.xml

init:

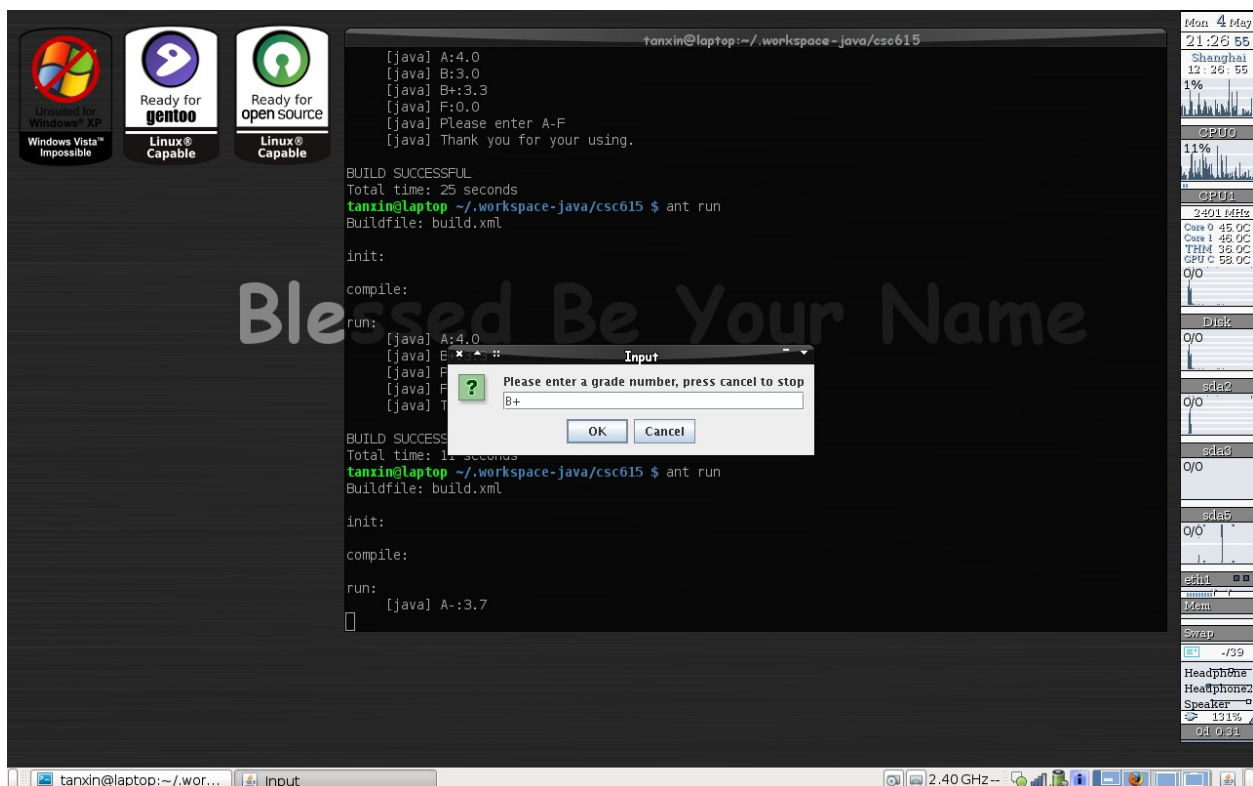

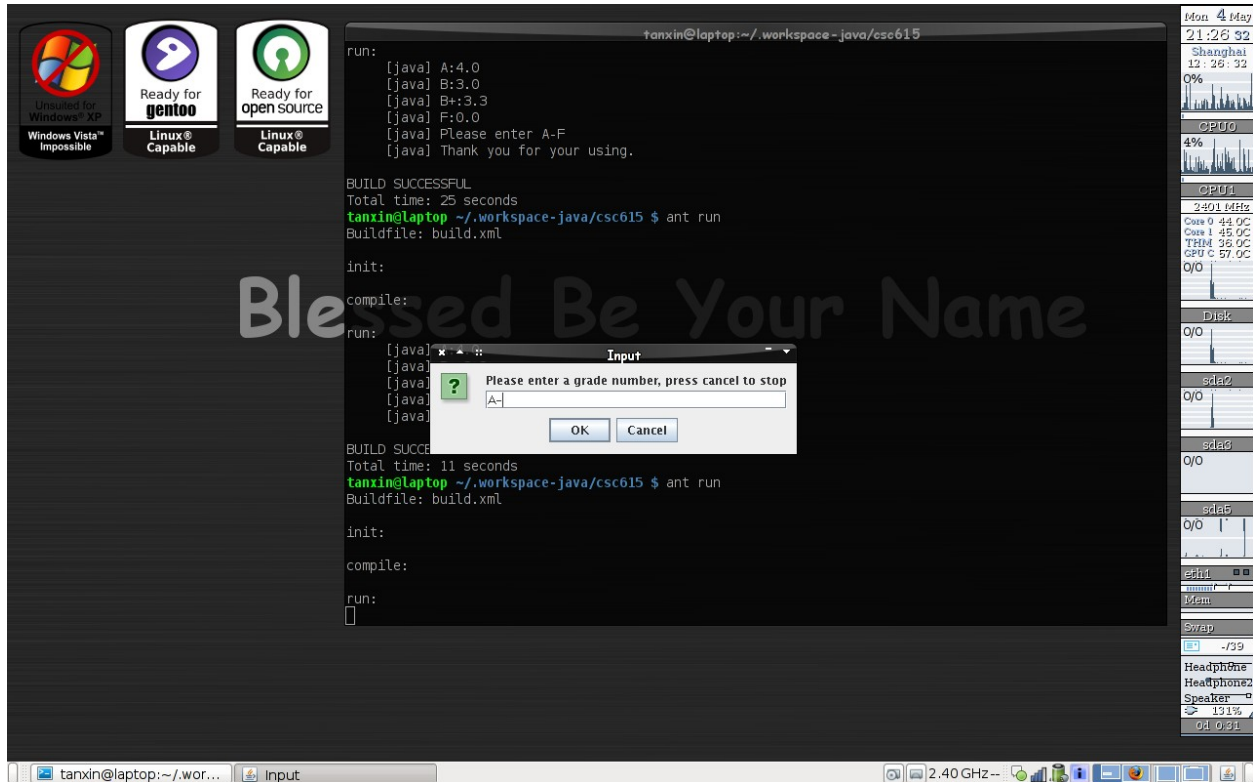

compile:

run:
[java] A:4.0
[java] B+:3.3
[java] Please enter A-F
[java] F:0.0
[java] Thank you for your using.

BUILD SUCCESSFUL
Total time: 11 seconds
```

### Screenshots:

## Assignment 4

## Assignment 5

```
tanxin@laptop:~/workspace-java/csc615
BUILD SUCCESSFUL
Total time: 25 seconds
tanxin@laptop ~/workspace-java/csc615 $ ant run
Buildfile: build.xml

init:

compile:

run:
[java] A:4.0
[java] B+:3.3
[java] Please enter A-F
[java] F:0.0
[java] Thank you for your using.
BUILD SUCCESSFUL
Total time: 11 seconds
tanxin@laptop ~/workspace-java/csc615 $ ant run
Buildfile: build.xml

init:

compile:

run:
[java] A-:3.7
[java] B+:3.3
[java] C-:1.7
[java] Thank you for your using.
BUILD SUCCESSFUL
Total time: 1 minute 56 seconds
tanxin@laptop ~/workspace-java/csc615 $
```

### Memo:

If the computer has not ant build toolkit, it can be also compiled and run as this way.

```
tanxin@laptop ~/workspace-java/csc615 $ rm -rf build
tanxin@laptop ~/workspace-java/csc615 $ mkdir build
tanxin@laptop ~/workspace-java/csc615 $ javac -cp src -d build src/edu/nu/csc615/assignment1/*.java
tanxin@laptop ~/workspace-java/csc615 $ java -cp build edu.nu.csc615.assignment1.MainRunner
```

### Code List:

edu.nu.csc615.assignment1.MainRunner.java

```
package edu.nu.csc615.assignment1;

import edu.nu.csc615.assignment1.exception.ExitException;
import edu.nu.csc615.assignment1.exception.InvalidInputException;

/**
 * Assignment 1 CSC615
 * @author Xin Tan
 * IDE: vim & eclipse
 * Date: May 4th 2009
 * Compiler:JDK 6.0 64bit(1.6)
 * Makefile:build.xml
 */
public class MainRunner {

    /* exit code to the shell */
}
```

## Assignment 6

```
public final static int EXIT_NORMAL = 0;
public final static int EXIT_FATAL = 9;

/**
 * Entrance point
 * @param args unless so far
 */
public static void main(String[] args) {

    /* allocate the instance */
    GradeAccessor gradeAccessor = new GradeAccessor();

    while(true){
        try{
            /* read by opening the dialog according to the requirement */
            gradeAccessor.readFromDialog();
            /* output to stdout according to the requirement */
            gradeAccessor.writeToTerminal();
        }catch(InvalidInputException e /* invalid grade, print error message and keep going*/){
            System.err.println("Please enter A-F");
        }catch(ExitException e /* exit exception by clicking cancel button and exit with normal sig-
nal*/){
            System.out.println("Thank you for your using.");
            System.exit(EXIT_NORMAL);
        }catch(Exception e /* impossible exception catch, could not happen generally. if that happen,
need debug stack */){
            System.err.println("impossible exception occurred, debug information:");
            e.printStackTrace();
            System.exit(EXIT_FATAL);
        }
    }
}
```

### edu.nu.csc615.assignment1.Grade.java

```
package edu.nu.csc615.assignment1;

}
```

### edu.nu.csc615.assignment1.GradeAccessor.java

```
package edu.nu.csc615.assignment1;
```

## Assignment 8

```
import javax.swing.JOptionPane;

import edu.nu.csc615.assignment1.exception.ExitException;
import edu.nu.csc615.assignment1.exception.InvalidInputException;

/**
 * Accessor with Input Output
 *
 */
public class GradeAccessor {
    private GradeAgent grade;

    public GradeAccessor(){
        grade = new GradeAgent();
    }

    /**
     * Read grade from Dialog, JOptionPane is required to be used in assignment requirement
     * @throws ExitException      ask for exit if press cancel button
     * @throws InvalidInputException  invalid grade string from A to F
     */
    public void readFromDialog() throws ExitException, InvalidInputException {
        String input = JOptionPane.showInputDialog("Please enter a grade number, press cancel to stop");
        if(input == null)
            throw new ExitException();
        grade.setGrade(input);
    }

    /**
     * Write result to stdout followed by assignment requirement
     */
    public void writeToTerminal() {
        System.out.println(grade.getGradeString() + ":" + grade.getGradeDouble());
    }
}
```

### edu.nu.csc615.assignment1.ExitException.java

```
package edu.nu.csc615.assignment1.exception;

public class ExitException extends Exception {
    public ExitException(){
        super("Exit Exception");
    }
}
```

### edu.nu.csc615.assignment1.InvalidInputException.java

```
package edu.nu.csc615.assignment1.exception;

public class InvalidInputException extends Exception {
    public InvalidInputException(){
        super("Invalid Input Exception");
    }
}
```
